**(Live Outcomes / Total Outcomes).....50% \***

*\*Hearts That Purr Feline Guardians supports and participates in the Shelter Animals Count effort to create a national database of animals in our nation’s shelters. However, as an animal welfare organization that specializes in sanctuary for elderly felines who have outlived their owners, many of which come to us with chronic or terminal illnesses, our statistics are not typical of the animal shelter data collected by Shelter Animals Count. Nevertheless, in the spirit of transparency, we would still like to present general information regarding our activities and impact to date in a similar fashion and make this available to all interested parties on our website.*

*\*\*Includes “Senior Citizens & Senior Kittizens” foster program.*

*\*\*\*We provide compassionate and competent hospice care to all terminally ill felines in our care. Euthanasia is only utilized when all of our best efforts can no longer provide a quality of life, free of pain and suffering, for such felines.*
